OH, BUT YOU SHOULD!

'You only live once, but if you do it right, once is enough' - Mae West

BLUEPRINT

7 SHAPES, SIZES + TRIM

view our robust collection of shapes and sizes and see examples of how beautiful a simple solid tile can be

8 - 9 COLOR PALETTE

99 colors, with the option of customizing or having us color match

10 - 39 THE ORIGINALS

the first designs we introduced, where we shook the market with a new look for cement tile. Here we show 'pre-set' colorways for each design

40 - 47 THE CUBAN HERITAGE COLLECTION

a trip to Cuba inspired this collection, which resulted in very elaborate patterns and borders

48 - 51 GUILLERMO + TANIA COLLECTION

two well-known established designers show their works of art

52 - 55 THE BRASSERIE COLLECTION

inspired by the traditional French brasserie, this collection is a favorite for hospitality applications

56 - 57 GEOLOGY

with nature as our inspiration, this collection is created by using a free-form technique, where the tile maker becomes the artist

58 - 115 THE SOURCE BOOK

our complete collection where we show you the possibilities of creating your own colorway. Think of 'Paint by Number'!

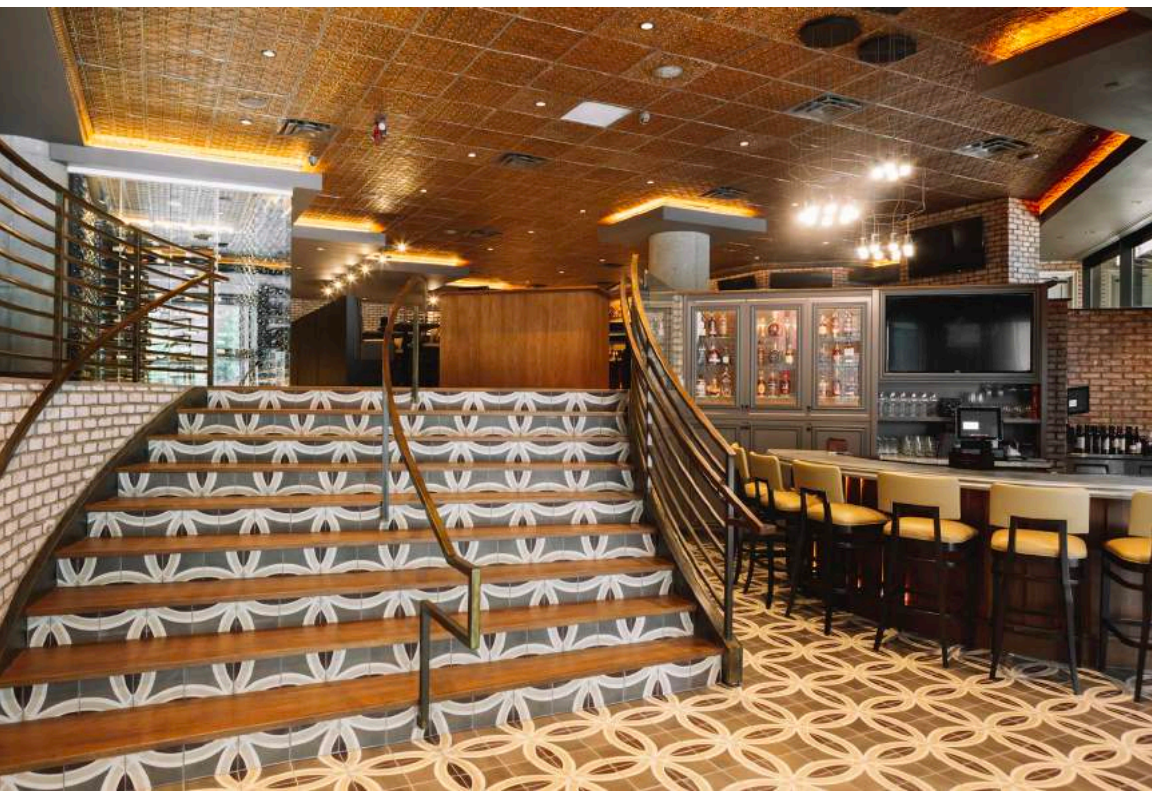

116-120 BORDERS

122-123 SHOP BY SIZE / CREDITS

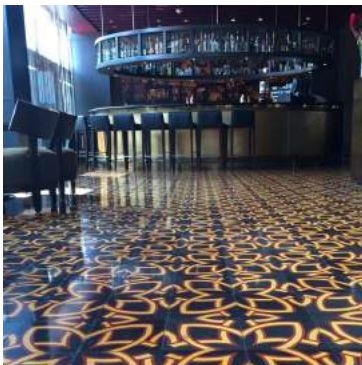

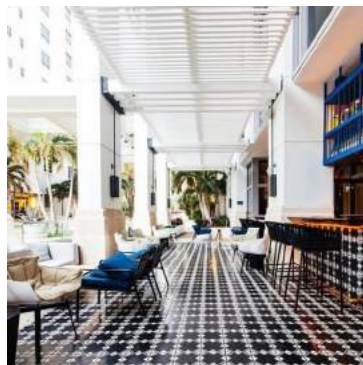

find tiles by page number and photo credits

124 INFORMATION / TECHNICAL / OUR STORY

we talk about the basics, although for detailed information, please visit sabinehill.com

the CUBAN HERITAGE collection

A trip to Cuba inspired us to create the Cuban Heritage collection.

Designs recovered from antiquated houses and crumbling regal buildings in Havana and Camagüey. In some cases, these structures were in such a state of disrepair that debris had to be removed in order to find the beautiful antique floor of intact tiles underneath. A shock in contrasts, but a fortunate discovery, since many of the old buildings were being destroyed or renovated and these tiles will soon be lost forever. Some of the tiles are whimsical and others are modernist, reflecting Cuba's heyday in the designs.

The Cuban Heritage Collection differs from other cement tiles by having more elaborate patterns, using stronger colors, and prominently using double borders to enrich the designs.

GUILLERMO + TANIA COLLECTION

berighestah #3

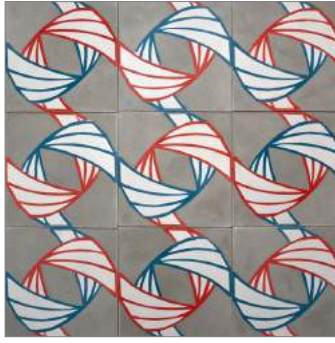

Guillermo Gomez Lama; visual artist and graphic designer who is in love with paper and passionate about patterns and the process of producing them. He started his studies of arts at UMASS Amherst in Boston, MA. Guillermo continued his formal studies of Design of Communications at Parsons The New School for Design in New York and that is where his interest for the process of mechanical production of silk-screen printing, lithography and etching was born. His research led him to receive training from the Master Printer, Marie Dormuth, former reproducer of Andy Warhol and Peter Gee, and Martin Mazorra in lithography.

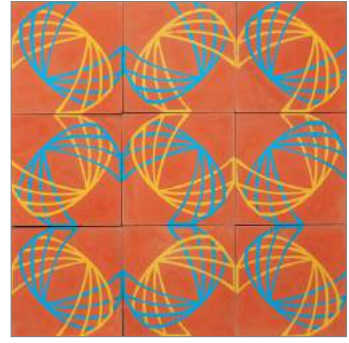

His work bears some influence from vibrations and repetitions of experimental electronic music, mosaics and mainly from the patterns of human behavior.

Tania Marmolejo: graduate in Fine Arts and Design at Kristiansand (Norway), Altos de Chavón (Dominican Republic) and Parsons The New School for Design (New York). Her work is a mix of her Scandinavian inheritance, evidenced in the use of intertwined decorative lines when illustrating natural surroundings reminiscent of the Nordic folk art and ancient Viking styles, as well as her Caribbean essence: color, warmth, exuberance of the landscape and flora that influence and coexist intentionally in her paintings and textile designs.

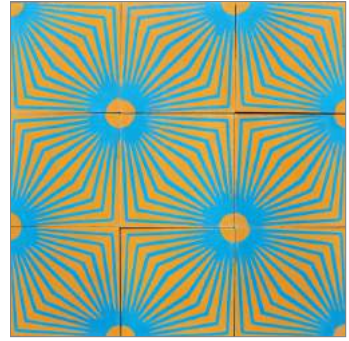

For this project of cement tiles, Tania uses the line as a foundation for the element of design, recalling Swedish textile prints, while incorporating Caribbean themes, such as the "Coralillo" flower, tropical gardens and the sea.

THE BRASSERIE COLLECTION

Inspired by the traditional French brasserie, this collection infuses classic mosaic patterns with a contemporary color palette. 10"x10" solid concrete tiles that have a 'faux' grout line to appear as if it is a mosaic. Extremely durable, easy to maintain, and endless options of colorways.

Designed in collaboration with Studio K for hospitality and residential applications, The Brasserie Collection adds modern, understated elegance to any project.

Geology

nature MOVES us . . . nature INSPIRES us

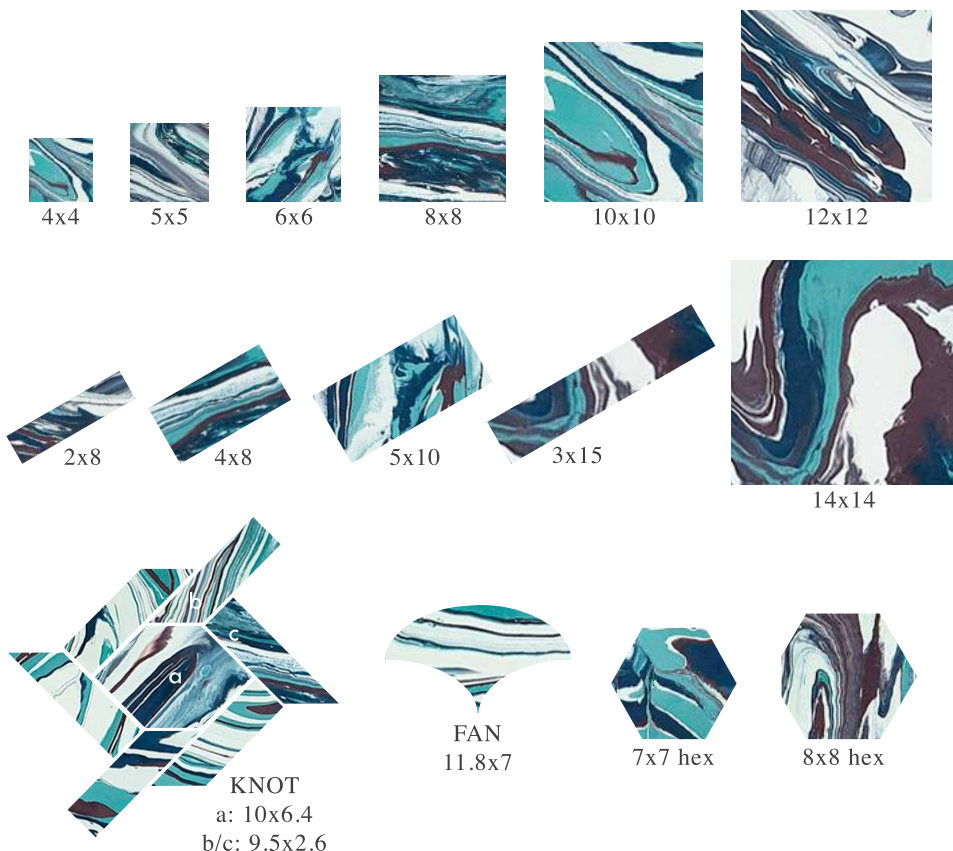

The GEOLOGY collection uses an old free-form technique, where no pattern exists and a simple flick of the wrist can have an incredible impact on how the finished tile looks. With nature as his muse, the tile maker becomes the artist, letting color flow, creating beautiful unique pieces.

Just like nature, each piece will be different.

9 colorways / available in all shapes + sizes / thickness ~.71"

THE SOURCE BOOK

We specialize in custom colorways.

This means you select your own colors and color placement within the design.

Think of it as 'paint by number'!

In this section of the catalog we will show you the line drawing and one rendering per pattern, just as examples.

CUSTOM COLORWAY PROCESS

- 1 - SELECT THE DESIGN + SELECT COLORS
- 2 - CREATE RENDERING ON SABINEHILL.COM/DESIGN-YOUR-OWN
- 3 - SEND RENDERING INFORMATION TO SABINE HILL
(so we know where colors are going)
- 4 - YOU WILL RECEIVE A SAMPLE PHOTO IN 4 DAYS
- 5 - PHYSICAL SAMPLE IN YOUR HANDS IN 2-3 WEEKS
- 6 - PLACE THE ORDER AND IT WILL BE DELIVERED IN 6-8 WEEKS

A METAL MOLD, NATURAL MINERAL PIGMENTS, AND YOUR IMAGINATION

Each tile is handmade, one by one, by pouring pigments into the different sections of the mold. The color layer is about 1/4" thick, thus the colors will never wear off. We then apply a blend of Portland cement, marble powder and fine sand. The tile then gets pressed in a hydraulic press, bonding the layers together, and cured with water and air. No glaze, no kiln. Natural ingredients from Mother Nature! We are Green!

To learn more or watch a video on how our tiles are made, visit sabinehill.com

right; bayahibe shown in a variety of custom colorways

THINK OF THIS AS 'PAINT BY NUMBER'.
BACK TO BASICS! *BACK TO CHILDHOOD!*

A MESSAGE ON 'CUSTOM': *Sometimes, when we hear the word 'Custom', we may think*
"oh gosh, that will be expensive and will take forever!"
BUT IT'S NOT! IT'S AN EASY PROCESS WITH NO UPCHARGE!

Create a unique statement!

INFORMATION

■ **LEAD TIMES · ORDERS** ■ we have a very large selection of In Stock tiles, stocked in our Miami FL warehouse. Anything that is not in stock, is considered Made-to-Order (also known as Custom).

IN STOCK ORDERS ■ ships in 1-2 days from Miami FL

MADE TO ORDER / CUSTOM ■ ships in 6-8 weeks from Miami FL
(for orders over 1,000 SF, please inquire)

■ **LEAD TIMES · SAMPLES** ■ we stock a large selection of samples in our Miami FL warehouse. Anything that is not in stock, is considered Made-to-Order / Custom.

IN STOCK SAMPLES ■ ships in 24 hours from Miami FL.

MADE TO ORDER / CUSTOM SAMPLES ■ 2 weeks for you to receive; A photo will be provided prior to shipping the sample.

■ **CUSTOM MOLDS** ■ want to create your own design? Wonderful! This process takes about 2 weeks for us to produce a new mold. Please inquire for additional information.

■ **CUSTOM COLORS** ■ do you want to color match to a fabric or paint color? No problem! All we need is a physical sample or a Pantone #

■ **APPLICATIONS** ■ Sabine Hill tiles are suitable for wall and floor coverings for residential and commercial environments, and are appropriate for both interior and exterior. In this catalog we provided many photos of all applications for your reference. showers · yes | pools · yes | freeze/thaw · no

■ **SEALED TILES** ■ we do offer the option to pre-seal. We use Dry Treat original stain proof, which is a permanent penetrating sealer. If you choose this option, you will only have to seal the grout after installation.

■ **HOW MUCH TO ORDER** ■ when the total net Square Foot is determined, 10-15% overage is recommended. The room layout is typically the deciding factor (for example, a room with a lot of twists and turns will require more cuts, thus order accordingly). You do not want to be short with a handmade tile, as colors may vary and it will take time to produce them!

■ **A HANDMADE TILE** ■ concrete tiles (cement tiles), first appeared in the late 19th Century, and it's manufacturing process has stayed exactly the same. Handmade from skilled artisans, these tiles consist of high quality Portland cement, marble powder, fine sand and natural mineral pigments. Each Sabine Hill tile is individually hand made; one tile takes 2 men about 4 minutes to produce. Slight variations such as thickness, shade, slight imperfections, irregular edges and crazing are inherent in this product. These characteristics add to the products natural appeal and does not compromise the performance of the tile. There is such beauty in a handmade tile!

■ **POLISHED vs UNPOLISHED** ■ polished tiles will not have a high sheen as you see in a marble, but rather a soft patina with a soft, smooth feel. Unpolished tiles will have a matte finish and are a bit sandy to the touch. To achieve the polished finish, we take an extra step during production, and we buff the tiles. This process can be done after installation as well.

■ **TECHNICAL INFORMATION / TESTING DATA** ■ detailed information can be found on the Sabine Hill website

OUR STORY

20 years ago I walked through a door of a very high-end stone and tile showroom, and I was inspired. With a background in Architecture and Construction management, I found myself very intrigued with this industry. I started in Sales, loved it, and quickly moved up to become the marketing director, creating everything from catalogs to the website. I loved that too. I fell completely head over heels with stone and tile... But it was also, through this door I walked through, where I met my husband, Jeff.

Shortly after we were married, we had our first child, Willie (who you have seen a few times in this catalog). When Willie was just turning One, we spent a summer on a small little island; evening strolls around this island is where I had my aha moment and told Jeff that I wanted to start my own line of tile. We went through all of the possibilities, and then Jeff told me about a product that he used to sell decades ago. I researched it, and was mesmerized with the manufacturing process and how you can manipulate a design with where you place the color. My mind began living in a world of patterns.

One year later, 2 weeks after our Daughter Seanna (pronounced C-Aña) was born, I launched Sabine Hill. I remember it as if it was yesterday; August of 2011, it was the middle of the night, right after a feeding to Seanna, when I released the collection. The excitement of a newborn and a new company!

The feedback was overwhelming, although I kept my cool, took a 'grass-roots' approach, worked when the kids slept, and built my business at my own pace. What else was I going to do with my time, I thought... My husband traveled every week, my kids were great nappers, and I was driven!

8 years later, in 2019, Sabine Hill merged operations with our partner factory, Aguayo Tiles; A state of the art facility, a company that has been producing cement tile for over 70 years; a partnership that has turned into family. 50 designs turned into over 400. Concrete pavers and 3-dimensional products added. This was an amazing success, and even led Jeff to join the Sabine Hill family (which was one of my goals from day one!).

As we approach our 10 year anniversary, I would like to say Thank You to all of you Lovers of Tile! The success of Sabine Hill is because of you!

Please continue to follow us and keep us in mind for your projects! #sabinehill
